

MBAA Executive Meeting

President:

Referendum - It has been determined that a referendum is required to create a protocol for referendums. Students have been asked to participate in an ad-hoc committee and 4 applicants have replied. Meetings will start soon. This referendum will happen by end of term or beginning of summer term.

The health plan will be added to the fall referendum.

Sponsorship Donations - Samsung is donated to MBA Games competing team but are not willing to transfer until a gst # is provided. The MBAA does not yet have one so the university will handle this instance and process for future instances will need to be determined.

Finance:

The winter semester budget was made based on 180 students however 240 are in attendance. We also got sponsorship for the wine & cheese so we will need to strategize around that. Last semester is not yet reconciled but Yasir will have this complete for next reason. At that time we will strategize around budget spend of any surpluses.

The majority of spends to date for this semester are club spending but all events have yet to be incorporate.

International:

Chinese New Year is good to go and Tiri will be picking up fortune cookies. The exec will promote the event to students. So far 10 tickets have been sold but the FB rsvp is at 30 so we are expecting at least half that. We are going to promote by hiding tickets and giving clues via the facebook group.

Academic:

Town Hall is tomorrow. We will extend it to 5:25PM to accommodate classes ending.

Austin has dealt with some student issues but there is nothing major to speak of.

Social:

Kaushik is going to address the students at the town hall to discuss strategy around promoting club events by coordinating socials. He is currently pricing out winter bound options and investigating feasibility of post-exams archery.

This Thursday's event will now be official with Jack Astors added to the event posting.
